[a] memory means for memorizing the specific information received by said specific information receiving means; and

- [a] specifying means for specifying the terminal device being used by said user based on said specific information of said memory means.
- --8. (Amended) The network server according to claim 7, wherein

said specifying means[

transmits] <u>includes means for transmitting</u> message information to said user [to] of the terminal device [in use] by said user [specified] <u>specific information</u> based on the specific information of said memory means.--

REMARKS

Claims 1-8 remain in the application and have been amended hereby.

As will be noted from the Declaration, Applicants are citizens and residents of Japan and this application originated there.

Accordingly, the amendments made to the specification are provided to place the application in idiomatic English, and the claims are amended to place them in better condition for examination.

An early and favorable examination on the merits is earnestly solicited.

Respectfully submitted,

COOPER & DUNHAM LLP
